Crayfish live in streams, rivers, swamps, ponds, and other freshwater habitats. Most crayfish are strictly aquatic but some live in semi-aquatic environments. The semi-aquatic crayfish burrow into the soil to get to water (so that they can breathe). Anatomy: This crustacean has a hard exoskeleton that protects and supports the body. The crayfish has 8 jointed walking legs, a segmented body, 2 ...

[Crayfish External Anatomy - The Biology Corner](#)

I used this crayfish dissection kit for a homeschool science class. The ages in our class ranged from 4-8 years. The student guide was thorough and easy to understand and the instructor's guide was easy to use. The kit had all the materials I needed for each child. It was the perfect kit and I would highly recommend it for others - of all age ranges!
