The work, alas, is not *The Beast*, but a memoir entitled *Gone Tomorrow*. The journal follows two tracks, an account of his final days as a teacher and a chronological journal of his life. Kluge's vision is panoramic. He moves from Prague, where Canaris was born, to California, where he wrote a novel about Hollywood; then to Ohio; briefly to Manhattan; then, near the end, back to Prague, where the idea for

Kluge is himself a teacher so his writes from experience. However, Canaris' character often bemoans the carelessness in his creative writing student's offerings, and ironically, this novel itself inexplicably contains several carelessnesses as well.

More praise for P.F. Kluge's *Gone Tomorrow* this week. The *San Francisco Chronicle* ran a lengthy review: "The candor and sensibility of the author of a novel about memory and about memorialization makes him successfully risk and resist sentimentality. On this score, Kluge has dozens of gorgeous, wrenching passages, details, throwaway observations. He can really write, like a man who means it.

Kluge (*Alma Mater*, 1993; *Eddie and the Cruisers*, 1980, etc.) again explores the mythical power of rock-'n'-roll. The "magic" of pop, this workmanlike novel argues, is all about a special moment in time. In this case, that moment occurs in 1990 in a sleazy town in the Philippines where countless whorehouses and bars service the Americans based at Subic Bay.
