Dr Bill Webster is someone who knows about grief, not just in theory, but from a very difficult personal experience. In 1983, Bill's young wife, Carolyn, died very suddenly, leaving him to cope with his loss, and to care for their 2 boys, then only 9 and 7. At first, Bill seemed to be doing well, and many commended him that he appeared "so strong", and "doing so well" at the time of ...

Loneliness is a natural part of grief and it is one of the more trying aspects of accepting a loss. When a loved one dies, a hole is left that no one and nothing else can fill. It is as if no one else can know or understand. The intense and mixed feelings of grief can lead to separation and isolation from others. It is that uncomfortable feeling of being lonely in a crowd, being in the middle ...

You are alone when you want to share a comment about something on ...

Loneliness. In my opinion, due to the chaos of the black whole caused by grief and its ability to suck me and everything around me down it, when grief dissipated, loneliness was still there. Why! Because like grief, it can also be a separate but core product of your loss, and serves as a reminder that it "ain't" over until it's over ...
