The John Deere model B was built from 1935 to 1952. In 1952, it was replaced by a new row-crop model, the John Deere 50. The John Deere model B was introduced as a smaller tractor, to fill the needs of row-crop farmers that did not need a tractor as large as the A. It had a 17-year production run, and the versions of the B can be broadly divided into three groups. The original B is often ...
