Some recent pictures of Lotus Twin-Cam engine build underway at present. Customer arrived with a ute load of sundry English Ford engine parts, a "Fordised" and knife-edged forged steel fully-counterweighted Datsun L18 crank and a well-used bare twin-cam head for VRD to combine into an engine. Unlike the standard TC engine that is based on the 1500 pre-X-flow block deck height and stroke, this ...

By August 1962, there still wasn't a production Twincam in sight. A deal had been struck between Lotus and Ford to design and build the Lotus Cortina using the Twincam engine, although nothing had been started, and the London Motorshow was in October, where the new Elan would be launched, with, of course, the Twincam engine. No pressure!

There are basically two Ford-derived Twinks, the Mk1 introduced in the Mk1 Cortina in 1963, and MkII, which was fitted in the MkII Cortina Lotus from March 1967 - this version was also fitted to the 1968 Escort Twin Cam. This is actually the better engine since it has a purpose-cast Lotus block (identified with a large L on the side but usually under an engine mount) as opposed to a mere ...

looks like the decision is made, my thoughts are that I will have the Lotus twin cam engine that is presently in my car rebuilt. In the longer term my intention is to use my brand new 711M block as the basis for what will probably turn out to be a brand new engine. I will then be in a position to run my car on the road on a few occasions next year, using its current engine which will by then ...

Most of these discussions will be very general in nature with only a few references to Twin Cam, 907, R16 and English Ford engines. The logic for running such a series is due to the seeming need of many of the members who are novices to the Do-it-Yourself world into which they are often thrown as Lotus owners. Even if they have no interest in becoming a DIYer, basic knowledge will assist in ...
