The sociology of race uses historical records and empirical investigation to theorise how racial ideologies become established and how they are used to maintain stratification. For example, how they are enforced, how they change over time, and how this varies across societies. Sociologists also analyse how social institutions produce and maintain inequality across race categories. This ...

[Racism, Sociology of - Harvard University](#)

The sociology of race is the study of race and race relations. It has long been a central concern of sociologists. The assignment of individuals to racial categories profoundly affects the quality and even the length of their lives. These assignments are ostensibly made on the basis of biological criteria, such as skin color, hair texture, and facial features. Yet the biological meaning of ...

To say that race is defined in large part by political struggle is to recognize how definitions of race and racial categories have shifted over time, as the political terrain has shifted. For example, within the context of the U.S., during the founding of the nation and the era of enslavement, definitions of "black" were premised on the belief that African captives and African Americans ...
