

## SUBSEA ENGINEERING COMPANIES

Jan 19, 2021

[Subsea Engineering Companies](#)

Whether we are engineering deepwater umbilicals or developing robotics for aerospace applications, the safety and health of our employees, vendors, and customers is an integral part of our day-to-day business. If we are working, then our responsibility is to be working safely. Since our inception in 1964, we have placed a high value on employee safety—from diving services and subsea ...

[Worldwide Engineering and Construction Companies related ...](#)

A North East subsea engineering firm is developing new solutions for an emerging sector it says could create a £1bn a year market in the region, supporting thousands of jobs. Enshore Subsea, which has bases at Darlington, County Durham, and Blyth, Northumberland, is at the forefront of the collection of minerals from the ocean floor which are essential for electric vehicle batteries. The firm ...

A national oil company (NOC) is an oil and gas company fully or in the majority owned by a national government. According to the World Bank, NOCs accounted for 75% global oil production and controlled 90% of proven oil reserves in 2010.. Due to their increasing dominance over global reserves, the importance of NOCs relative to International Oil Companies (IOCs), such as ExxonMobil, BP, or ...
