My Mum taught us kids never to waste anything, not even a lousy book. So later in the day, I disinterred The Laws of Invisible Things from the trash box, even managed to finish it, albeit at breakneck speed. I must now confess that, despite my earlier, hasty distaste for it, it has one microscopic redeeming virtue. That is, the medical passages are dandy.

The Laws of Invisible Things by Frank Huyler is a puzzling book where things happen but the story never coheres. Protagonist Michael Grant is a 35-year-old infectious disease specialist who recently moved to a small city in North Carolina to join Dr. Ronald Gass in practice. Divorced and drifting in his personal life, Michael finds the routine of seeing his patients less than fulfilling. As the book opens, he has just made an unfortunate but understandable medical mistake which may have ...
