By seventeen, Pippa has lived with a Dexedrine addicted mother, felt the first stirrings of sexuality with a school girlfriend, had an affair with a teacher, and run away from home, set adrift on a course littered with broken hearts - until she found love and security in a family of her own. And now that seemingly established world, too, is in danger. In Pippa Lee we have an unforgettable heroine, and a quirky and acutely intelligent portrait of the many lives behind a single name.

Pippa Lee ist eine interessante Frau und schafft es den Roman auszufüllen. Eigentlich braucht es der Nebencharaktere gar keine. Doch Rebecca Miller hat trotzdem einige kuriose Typen aufgefahren, die den Roman noch ein Stück lebendiger machen. Ich habe lange keine so authentischen Charaktere mehr gesehen.

Fifty-year-old Pippa lives a contented life with her older husband, Herb. However, everything changes when Herb announces that they are leaving Manhattan for a retirement community. Unsettled in her new home, Pippa begins sleepwalking through life—literally. She catches herself on a security camera cooking and eating while unconscious, then finds ...

Rebecca Miller's The Private Lives of Pippa Lee has mixed reviews here, and having just finished it over the course of the weekend, I think it makes sense; it's probably not a book that would -- or probably should -- appeal to everyone. Pippa Lee is the much-younger wife of publisher Herb Lee. When the book opens, Pippa and Herb have just moved to a retirement community.
