[The Science Of Liberty Democracy Reason And The Laws Of Nature Timothy Ferris](#)

Despite dealing with some weighty issues, The Science of Liberty isn't a wonky book written by an egghead, but a passionately crafted and articulate exploration of the relationship between science and democracy. Ferris, a first-rate popular-science writer, combines lucid prose with some serious science chops to show how science and democracy working in symbiosis can thrive and--the author suggests, using the antiexamples of Hitler's Germany and Stalin's Soviet Union--can just as easily die ...
