The Yamaha P85 does not have a line out, but it does have two (2) stereo 1/4" (TSR) jacks. To run external speakers, get an insert cord (stereo 1/4" TSR to Left & Right, or Tip & Ring, mono 1/4" TS Jacks) and run stereo into an amp, PA, powered speakers, (We use Mackie in church and JBL with the band) or other reinforcement. Then get out front and listen to how good your P85 sounds!

The Yamaha P-85 has one of the best piano sounds that I ever heard. Other sounds are very good too, but the acoustic piano deserves to be highlighted. The P-85 can be used by all kinds of pianists, from beginners to professionals, in nearly all styles, from classical to jazz, also rock and blues. And the best thing is that it's not expensive.

I think Yamaha really are the best quality for this sort of thing. I tested a similarly priced Casio which had many more features but didn't sound quite as good as the P85; the P85 also had a superior sustain pedal. The keys have a great feel to them, especially to me as this was my first upgrade to a piano after having played on a 10+ year old Yamaha keyboard for a few years. Some sort of ...

To explain, the sound of the piano can change depending on how much you press down on the damper pedal (aka sustain pedal). Yamaha P85 and Yamaha P95: Portability and Durability. Do ...

This past weekend, I bought the Yamaha P85, and was pretty happy with it. My only problem was not really having a large number of reviews to base my purchase on. I simply visited Guitar Center and picked out the DP that I liked the best at this price point. However, while I'm still able to return this DP, I want to make sure I made the right choice. After reviewing several posts here, I ...
